

ELECTRIC AND HYBRID VEHICLE MAINTENANCE

Build the skills you need for the journey to Net Zero

- New NESCol training courses tailored to the motor trade
- Level 2 Award in Electric/Hybrid Vehicle Routine Maintenance
- Level 3 Award in Electric/Hybrid Vehicle System Repair and Replacement
- Learn from experts in industry standard facilities at the Aberdeen Altens Campus
- Courses running from:
29th April - 2nd May and 7th May - 10th May

“The new NESCol courses have provided a fantastic opportunity to further the skills of our technicians and allow them to gain the required qualifications to work safely and confidently on both electric and hybrid vehicles.”

- Graham McIntosh, Gillanders Motors.
